Dear Mr. Lenihan:

Adopt a School

Our Junior Committee has been fully informed about your initiative, *Adopt a School*, by our Hideo Komuro, Deputy Chairman of Junior Committee. This is a very interesting project and one that could make a significant difference to how golf is viewed in Japan. The *Adopt a School* project is clearly designed to help to create opportunities for young people to begin and to play the game, an essential development for golf's future well-being in Japan. Golf is a game which can be enjoyed for a lifetime, and one that should begin in childhood. We commend you and the PGM group for establishing this project.

As the governing authority for golf in Japan, we full supports the *Adopt a School* project as you have explained it to us, and you can refer to our support on your promotional literature and supporting documentation that will be distributed to clubs in the PGM network and to relevant third parties.

More specifically, we confirm that you may attach a copy of this letter to correspondence with elementary schools and parents' associations.

We are pleased to assist you in the implementation of the project and any other related activities for junior golfers at your facilities.

Yours sincerely,
